## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:
2. The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
3. Claims 15-19 and 21-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.  
  
Regarding Claim 15, it is unclear how the claim limitation relating to "the second layer disposed adjacent to the first layer" is taught by the originally filed disclosure. Applicant's comments do not appear to clarify how layers that are not in stacked relationship, yet adjacent, are supported by the originally filed disclosure.
4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
5. The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 6-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
7. Regarding Claims 6 and 15, it is unclear what is the basis for measuring "amount of chromium carbides." It is unclear whether this is an absolute amount, a

relative amount as measured by volume percentages, or some other basis of measurement.

***Response to Amendment***

8. In view of applicant's amendments and arguments, the objections to the Specification and claim of the Office Action mailed on 20 February 2007 are overcome and therefore withdrawn.
9. In view of applicant's amendments and arguments, applicant traverses the section 102 rejection over Breton and the various section 103 rejections based on Breton of the Office Action mailed on 20 February 2007. Rejections are withdrawn.

***Conclusion***

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael La Villa whose telephone number is (571) 272-1539. The examiner can normally be reached on Monday through Friday.
11. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jennifer McNeil can be reached on (571) 272-1540. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
